Pulse FAQs

Who is involved in the construction process?

It takes many people to install a brand-new, 100% fiber-optic internet utility. Pulse has put together a great team of local contractors to accomplish this. Throughout the process you may see members of teams such as Ditesco, Colorado Boring, and OnTrac in the neighborhoods.

Project & Construction Services

When will service be available in my area?

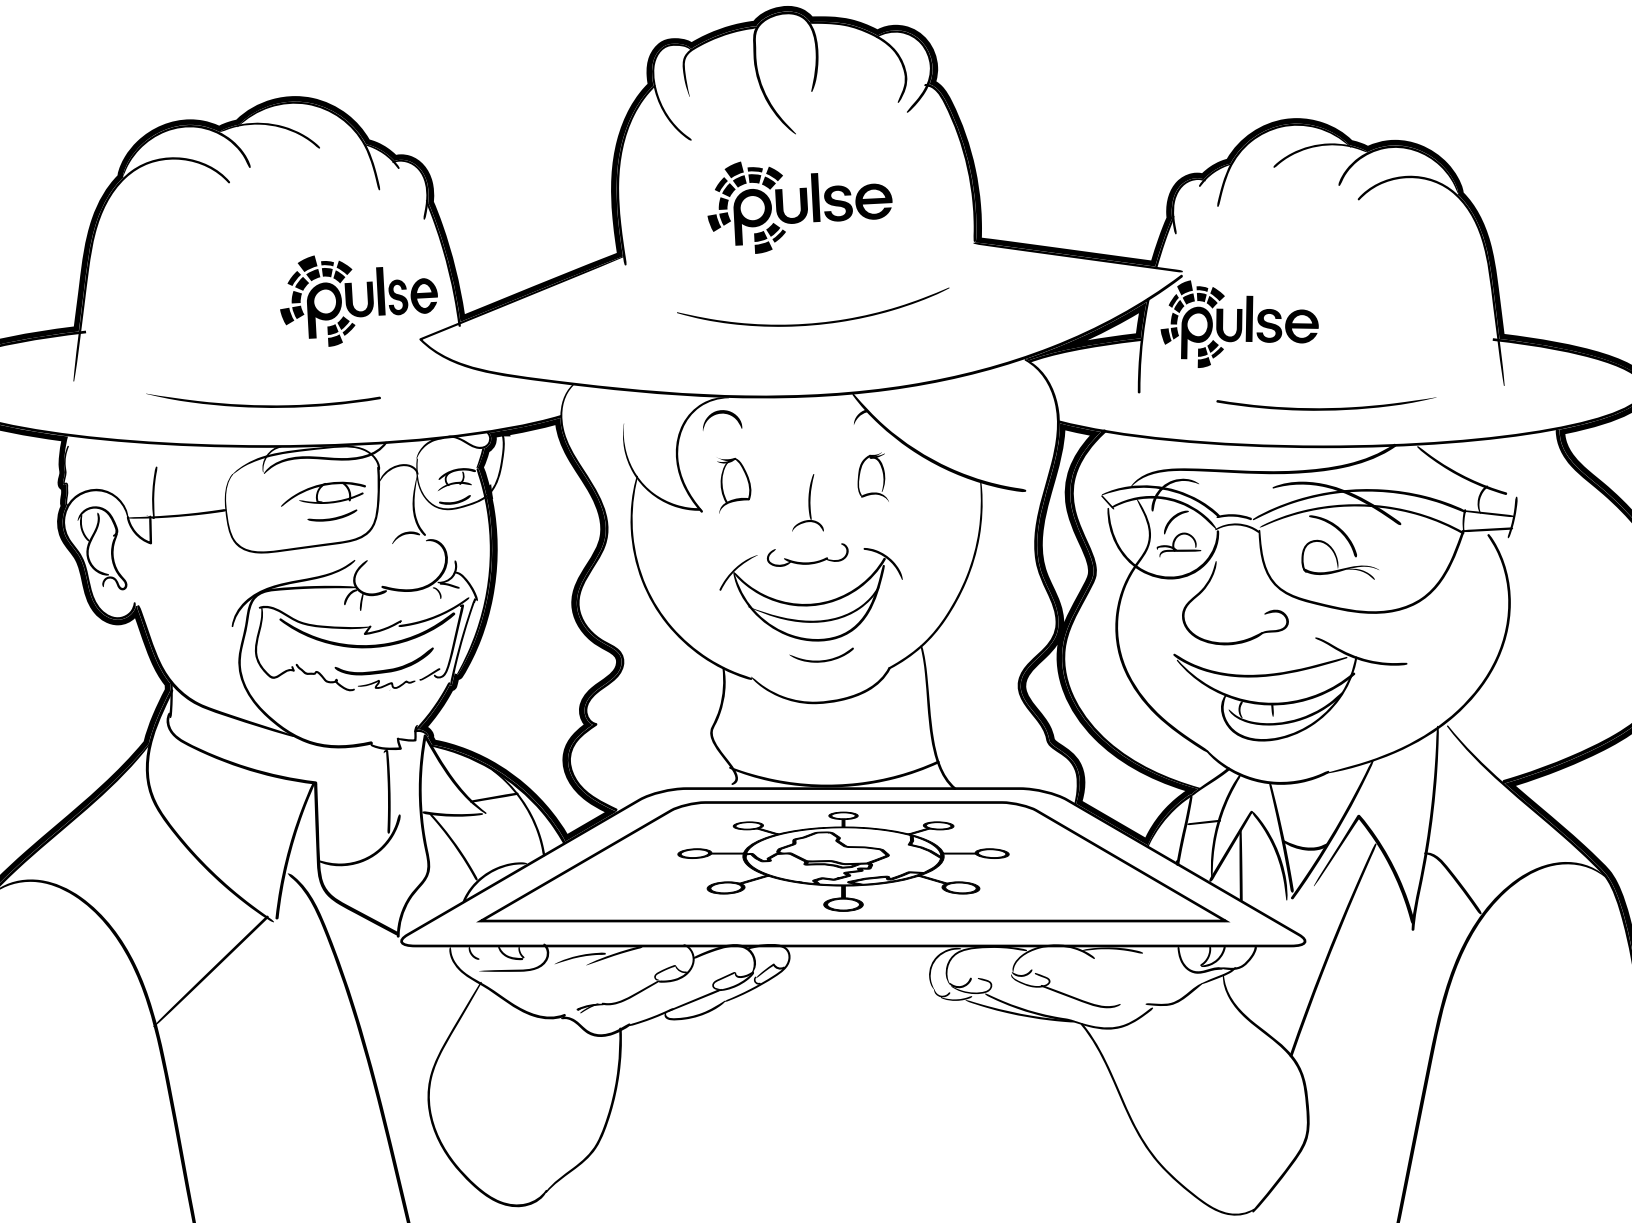

It will take 4-5 years from when we started in November 2019 to bring Pulse internet service to every home and business in Loveland and our expanded service area. We will notify neighborhoods directly when service is available to them.

Where can I find a construction map?

LovelandPulse.com/Map shows the current status of our network buildout. It shows where Pulse is available, under construction, or in the design phase.
